To change your voicemail message on your Samsung Galaxy s8, follow these steps:Open the Phone app.Tap the Menu icon.Tap Settings.Tap Voicemail settings.Tap Voicemail message.Enter your new voicemail message. Your voicemail messages can be browsed, played, and managed from the messages screen of the TeleConsole.An alternative method to access voicemail messages is to dial *1 on the dial pad.If requested, enter your mailbox PIN. You can change the PIN from the mailbox options by pressing 0 (see below), from the voicemail settings of the TeleConsole web version, or from the admin portal (Features>Mailboxes). The latter two can help you if you forgot your PIN! Your carrier provides and manages your voicemail. Contact your carrier for help with: Recovering or resetting your password/PIN for voicemail Replaying messages Saving, forwarding, or deleting messages Replying with or sending voice messages Changing number of rings before connecting call to voicemail Changing greeting or recorded name Changing notification options Changing mailbox language Listen to voicemail If you've set up voicemail, you'll see in the status bar when a new voicemail message arrives. Do one of the following: Swipe the status bar down and touch Or, touch , then touch & hold 1. When connected, follow your carrier's system prompts. If you listen to a new message and disconnect from voicemail without saving or deleting it, you will still see in the status bar. Manage your mailbox Do one of the following: Swipe the status bar down and touch Or, touch , then touch & hold When connected, follow the prompts to manage your messages and mailbox. To set your greeting: Touch > Touch & hold to dial into your mailbox. Follow your carrier's system prompts. If your voicemail is not set up, contact your carrier for instructions. Change voicemail options Touch > > Settings Touch Voicemail Touch Advanced Settings Change any of the options: To change voicemail service from your provider to another voicemail service or app, touch Service To change the number dialed to access voicemail, touch Setup To edit voicemail number: Go to > > Settings Touch Voicemail Touch Advanced Settings Touch Setup Touch Voicemail number Make any changes. Touch OK Tip. Touch *# to enter a pause or wait You may be wondering how to set up voicemail on your new phone. This can be confusing if you're not tech-savvy, but luckily we've got everything covered!This can be accomplished in just a few simple steps, even if you've never done it before. Here's how to set up voicemail on your Android phone in just five minutes or less!How to Set Up Voicemail on AndroidHere's how to set up a voicemail box on your Android device, such as a Samsung Galaxy.Most Android phones will come with "Voice Mail" already in their contacts.Step 1: 'Swipe up' from the homescreen to access your apps. In the "Search Apps" field at the top, type in "Contacts".Step 2: Click on 'Contacts'.Step 3: Click on the search box at the top right and type in "Voice Mail".Step 4: Click on 'Voice Mail'.Step 5: Click on the 'Call' icon to call it.Step 6: To set up your voicemail, follow the prompts.If you do not already have "Voice Mail" in your contacts follow these instructions:Step 1: 'Swipe up' from the homescreen to access your apps. In the "Search Apps" field at the top, type in "Phone".Step 2: Click on 'Phone'.Step 3: Click on the 'Keypad' at the bottom of the screen.Step 4: To call your voicemail, press and hold '1'.Step 5: To finish setting up your voicemail, follow the prompt.Awesome! Now you have set up your voicemail on Android. What Is Visual Voicemail?Visual voicemail is a visual list of your voicemails. It allows you to listen, delete, or save messages. Visual voicemail also makes it easier to navigate through your voice messages. It allows you to choose one message from a list instead of listening through every single one. Where to Find the Visual Voicemail AppThe name of your visual voicemail app will differ depending on which carrier you use. In some cases, it might come pre-installed with your phone or it might be a free app in your phone's app store. These apps usually require Android 6.0, 7.0, and higher. Look for apps called "Visual Voicemail" or "My Carrier" Visual Voicemail". Make sure to search by the carrier. There are separate versions of visual voicemail for each carrier.How to Change Visual Voicemail SettingsOnce you've set up visual voicemail, you can make changes as necessary to customize it. To change your visual voicemail settings, open your app and go into your Settings menu. Usually, it will be a little gear icon. Sometimes it will be 3 little dots that you can click on, then click Settings.From there, find Visual Voicemail in order to toggle or modify certain settings. You can change things such as grouping or turning notifications on or off.How to Set Up or Change a Voicemail Greeting on AndroidHere's how to change your voicemail greeting or set up a new one on Android.Step 1: Set up your voice mail as we did above in "How to Set Up Voicemail on Android". During the process, you will be asked if you want to set up a voice mail greeting. If you chose not to, or you are ready to change it, proceed to Step 2.Step 2: Call your voicemail. Step 3: Press '*' (star).Step 4: Press '3'.Step 5: Press '2'.Step 6: Press '2'.Step 7: Record your new greeting.Step 8: You will be prompted to either re-record your new greeting or save it as your greeting.Congrats! You now have a new voicemail greeting.FAQsWhere is the Voicemail App on My Android?Your voicemail is actually a phone number. Usually, it is saved in your contacts as "Voice Mail". Check your contacts to see if it is there. If it is not there, open your phone app and press and hold '1'. It will dial your voicemail, where you can either set it up or check messages. You can also use third-party voicemail apps for your Android.Can I Set Up Voicemail From Another Phone?You can't set up your voicemail from another phone, but you can check it from another phone. You can call your phone number and when it goes to your voicemail press * (star). Then it will ask you to enter your PIN or password. This will be a set of numbers that you chose when you set up your voicemail. From there you can proceed to check your voicemail.Why is Voicemail Not Working on My Android?Your voicemail setting may be incorrect. Make sure that you are dialing the correct number to access your laruhulohi Open the phone app and tap the three little dots to the right of the search bar. Then click 'Settings'.Click 'Voicemail'.Click 'Advanced Settings'.Click 'Setup'.Take note of the voicemail number listed here.Call the number. This should be the correct number to call for your voicemail. Make sure to update it in your contacts. If that doesn't work you can call your carrier to request new voicemail settings. How Do I change Voicemail Password On My Android?To change your voicemail password-Call your voicemail.Press '*' (star).Press '5'.Press '1'.It will then prompt you to change your password.Final ThoughtsNow you've learned how to up voicemail on your Android phone. You can now receive voice messages. Visual voicemail apps can be helpful as well to visually see who left you a message. They're not very good at transcribing voicemails to text though.To get a more accurate solution to transcribe your voicemails you can download Notta. Notta is a voice-to-text application that can transcribe your voicemails in real-time. It may help you save time in the long run.
